PROFESSIONAL SUMMARY

Full-stack Software Engineer with 5+ years of experience specializing in Laravel, Django, React, and mobile development. Expertise in building scalable SaaS platforms, healthcare systems, and enterprise solutions. Delivered efficient, maintainable applications across web and mobile platforms.

PROFESSIONAL EXPERIENCE

Software Engineer

July 2021 - Present

Byte Trek Limited

- Rebuilt SignatureCare healthcare platform (<https://ercare24.com/>) from WordPress to Laravel, React.js, and Next.js, migrating 800+ pages and thousands of images with a dynamic React.js dashboard for content management
- Built comprehensive Django-based credentialing system that streamlined healthcare provider verification, reducing processing time by 60%
- Designed and implemented enterprise employee management system with role-based access control for 100+ users, featuring ZKTeco device-integrated attendance system, leave management module, and upcoming payroll integration
- Developed survey web application using Laravel for released patient questionnaires, implementing barcode reader functionality and automated report generation in PDF/Excel formats with automatic email distribution to administrators and doctors
- Created RPA automation solution using UiPath for EPowerDoc platform, automating task preparation for doctors and eliminating manual workflow processes
- Collaborated with cross-functional teams to deliver features on schedule, maintaining 95%+ code coverage with automated testing

Junior Software Developer

November 2020 - June 2021

Kinetix BD

- Developed full-stack e-commerce platform with Livewire, featuring integrated inventory management and real-time order processing
- Built pharmacy management system with prescription tracking and automated reordering functionality
- Created employee management module with attendance tracking, leave management, and performance monitoring
- Implemented RESTful APIs and optimized database queries, improving application response time by 40%

TECHNICAL SKILLS

Backend Development

Laravel

Django

PHP

Python

Redis

Frontend Development

React.js

Next.js

Vue.js

JavaScript

Livewire

Mobile Development

React Native

Flutter

UI Frameworks & Tools

Tailwind CSS

Bootstrap

jQuery

DevOps & Tools

Docker

CI/CD

Git

Linux

Other Technologies

UiPath RPA

WordPress

C/C++

Java

KEY PROJECTS

Zap Sticker Studio - SaaS Platform

Laravel • Livewire • Tailwind CSS

Dashboard for uploading and maintaining stickers with RESTful API for mobile application integration

Electronic Medical Records (EMR) System

Laravel • Bootstrap • MySQL

Appointment scheduling, medical history tracking, and document uploading system

Inventory Management System

Laravel • Livewire • Bootstrap

Fully functional inventory system with comprehensive report generation

House Rent Management System

Laravel • Livewire • jQuery • Bootstrap

Property management solution with tenant tracking, payment processing, and reports

EDUCATION

BSc in Computer Science & Engineering

Sylhet Engineering College, Shahjalal University of Science & Technology (SUST)

January 2013 - January 2018 • CGPA: 3.36/4.00

Higher Secondary Certificate (HSC): GPA 5.0/5.0 (2012)

Secondary School Certificate (SSC): GPA 5.0/5.0 (2010)

COMPETITIVE PROGRAMMING

- UVa Online Judge: [Profile](#)
- Codeforces: [Profile](#)
